

Trouver un financement pour sa recherche avec l'outil Open4research

Guide Utilisateur

Présentation

Open4Research est un portail sur les appels à projets européens et internationaux pour la recherche. Son but est de faciliter l'accès aux appels à projets et de diversifier les opportunités de financement de votre recherche.

Cet outil recense plus de 7000 fonds (fondations, agences de financements) au niveau national, européen et international pour des financements de tous types (Collaborations, prix, financements de thèse, colloques, conférences...).

Vous pouvez vous créer un compte sur le site Open4research grâce à votre e-mail UPSud et lancer votre recherche, créer des alertes et sauvegarder les appels qui vous intéressent.

Grâce à des filtres par discipline, selon les types de fonds, montants des projets, vous pouvez optimiser votre recherche et vos alertes personnalisées.

- Open4research est disponible uniquement en anglais.
- L'accès à Open4research ne nécessite pas le téléchargement d'un logiciel.

La Direction des Activités de Recherche et d'Innovation (DARI) est à votre service pour le montage et la gestion de votre projet.

Remplir les informations vous concernant vous et votre projet de recherche de manière aussi précise que possible

Décrivez votre statut (chercheur expérimenté, en milieu ou début de carrière, doctorant, étudiant...) puis inscrivez votre discipline de recherche. N'hésitez-pas à consulter le glossaire des disciplines afin de pouvoir trouver ce qui correspond le mieux à votre recherche.

Déterminez les activités de recherche que vous souhaitez effectuer : collaboration académique ou industrielle, mobilité, financement d'équipement, participation à une conférence, colloques, activités de dissémination, prix...

Vous pouvez ensuite déterminer où est-ce que vous souhaitez mener votre projet, en ajoutant plusieurs pays si besoin.

Il existe la possibilité de trier les fonds disponibles et d'orienter la recherche vers des bailleurs ciblés que vous souhaitez consulter.

Il est également possible de faire une recherche par mots-clés : attention, ce type de recherche peut restreindre le nombre d'appels auxquels vous seriez éligible, il existe en effet des appels blanc ou interdisciplinaires qui pourraient vous correspondre.

Une fois la recherche lancée, une liste de résultats apparaît. Vous pouvez les filtrer selon plusieurs critères :

- Le montant du financement : attention, l'utilisation de ce filtre est déconseillée, car certains appels à projets n'ont pas de montant défini ou sont divisés en sous- appels, ce qui les fait disparaître après application du filtre, alors qu'ils pourraient concerner le montant envisagé
- Le type de financement : bourse, subvention, prix ou compétition...
- La source du financement : gouvernement, université, association...
- La date de l'appel à projet : ce critère permet de voir en priorité les appels les plus récents, ou les appels qui ont été mis à jour.
- Le statut de l'appel à projet (ouvert, fermé, à venir ou arrêté).

Item details

AAUW International Fellowships

Description
Funding is available for female academics, who are not US citizens or permanent residents, for full-time study or research in the United States.

Fund ID: S7839
Current Status: Closed to Applications
Funding body: American Association of University Women (AAUW)
Last updated: 17-12-2018
Application deadline: None specified
Maximum value: 30,000 USD (€ 26,000)

Extended Description
The American Association of University Women (AAUW), founded as a non-profit organisation in 1881, aims to promote equity and education for women and girls through advocacy, education, philanthropy and research. AAUW's International Fellowships are awarded for full-time study or research in the United States to women who are not US citizens or permanent residents. Both graduate and postgraduate studies at accredited US institutions are supported. The Fellowships were originally designed to provide South American women with opportunities for graduate and postgraduate study in the United States, with the first Fellowship being awarded in 1917. The initiative now extends to women from around the world. Recipients return to their home countries to become leaders in business, government, academia, community activism, the arts and sciences. Preference is given to women who show prior commitment to the advancement of women and girls through civic, community or professional work. Recipients are also selected for their demonstrated academic achievement. A limited number of awards are available to women who are members of the Graduate Women
